

EMMANUEL OLUWADAMILARE TAIWO

FRONT-END DEVELOPER

etaiwo2025@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

I am a passionate Frontend Developer and Mechatronics Engineering student with interest in building modern and responsive web applications in building modern and responsive web applications. I have experience using HTML,CSS, Javascript, React.Js, Next.Js and Tailwind Css to create clean and user-friendly interfaces. I enjoy solving problems, improving user experience and turning ideas into functional digital products. I am skilled in responsive web design, Git, GitHub and teamwork through collaborative projects. As a Mechatronics Engineering student, I combine engineering thinking, creativity and technical skills to build innovative solutions.

EDUCATION

Bowen University

B.Engr. Mechatronics Engineering

Iwo, Osun State.

Nov 2025 - Nov 2030

- **Related Coursework:** Engineering Mathematics,Circuit Theory, Programming Fundamentals, Robotics and Automation, Fluid Mechanics, Thermodynamics,, Mechanical Design, Pneumatics and Hydraulics,Microcontrollers & **Embedded Systems, Analog Electronics**

Aptech Computer Education

Responsive Web Development

Abeokuta, Ogun State

Aug 2025- Aug 2026

- Related Coursework: HTML & CSS Fundamentals, Javascript Programming, Responsive Web Design, React.Js, Next.Js, Tailwind Css,

EXPERIENCE

DecodeLabs

Front-end Developer Intern

Remote.

May 2026 – Jun 2026

- Developed a responsive Hotel Management System for managing hotel operations and customer data.
- Built features for room booking, customer records, reservations and payment tracking
- Collaborated with team members to test, debug and deploy application features
- Gained experience in responsive web design

CodeAlpha

Frontend Developer Intern

Remote

May 2026 – Jun 2026

- Assisted in building responsive and user-friendly web interfaces using HTML, CSS, Javascript, React, Next, Tailwind CSS
- Developed reusable components and optimized websites for mobile and desktop devices.
- Collaborated with developers and designers to improve website functionality and UI/UX.
- Developed a mini car sales website called “Car Ride” for showcasing and promoting vehicles online.

PROJECTS

GitFind | HTML · CSS · JavaScript · Github API ([Link](#) | [Github](#))

- Developed a web application for searching and viewing Github user profiles and repositories in real time.
- Integrated the Github API to fetch user data, repositories and profile information dynamically.
- Implemented search functionality, loading states and error handling for better user experience.
- Technologies used: HTML, CSS, Javascript, Github API
-

Planora | React · CSS · Javascript · Node. Js · Supabase | ([Site link](#) | [Github](#)).

- Developed a SaaS-based study planner application to help students organize tasks, schedules, and study goals efficiently.
- Designed a modern and responsive user interface focused on productivity and user experience.
- Implemented features such as task management, study scheduling, progress tracking and reminders.
- Built reusable frontend components and optimized the application for mobile and desktop devices

TasteGo-Food Recipe App | UI/UX Design| ([Site link](#) | [Github](#)).

- Designed a modern and intuitive food recipe mobile app focused on helping users discover, explore, and prepare recipes with ease.
- Created user flows, wireframes, and high-fidelity interface designs in Figma.
- Developed a clean and engaging visual design system with consistent typography, colors, spacing, and reusable components.
- Focused on creating a seamless user experience for recipe discovery, browsing, and cooking.

MediVault — Healthcare Pharmacy Platform | Next.js. CSS . Javascript.| ([Site link](#) | [Github](#)).

- Designed a modern and intuitive food recipe mobile app focused on helping users discover, explore, and prepare recipes with ease.
- Created user flows, wireframes, and high-fidelity interface designs in Figma.

- Developed a clean and engaging visual design system with consistent typography, colors, spacing, and reusable components.
- Focused on creating a seamless user experience for recipe discovery, browsing, and cooking.

SKILLS

Programming: TailwindCSS, Python, JavaScript, HTML/CSS, React.js, TypeScript, Next.js, Framer Motion

Tools: Git, Vite, Figma,
